

2021 BILLS WE'RE WATCHING

A FOCUS ON EDUCATION EQUITY

Connecticut has one of the largest and most persistent educational opportunity gaps in the country. Black and brown students, segregated and discriminated against, attend school in some of Connecticut's most underperforming school districts. This injustice permeates through all aspects of society and reduces ability to gain social and economic power in the 21st century.

SB 977 AN ACT CONCERNING VIRTUAL LEARNING

At [ConnCAN](#), we are committed to closing Connecticut's opportunity gap, one of the largest and most persistent in the country. We believe that every student deserves the right to a high-quality education. We advocate for improved policies and education outcomes by conducting actionable research, empowering and mobilizing communities, and pressing elected leaders to enact legislative improvements.
